SUMMARY

A passionate and detail-oriented front-end developer with a strong HTML, CSS, and JavaScript foundation. Proficient in building responsive and user-friendly web applications using modern front-end frameworks and libraries. Committed to writing clean, maintainable code and delivering exceptional user experiences. I am eager to leverage my skills and continue growing in a dynamic, collaborative team environment.

TECHNICAL SKILLS

Languages: JavaScript, HTML/CSS, SQL, Python(for Data Analytics)

Developer Tools: GitHub, VS Code

Libraries: React, Redux, Pandas, NumPy, Matplotlib

EDUCATION

Gokaraju Rangaraju Institute of Engineering and Technology

Bachelor in Electronics and Communication

Hyderabad, Telangana

Aug. 2019 – May 2023

EXPERIENCE

Data Analyst

Prep Insta

Jan 2024 – April 2024

online

- * Performed exploratory data analysis using Excel
- * Build dashboards in tableau for pollution data through the years in India
- * Working on large data sets such as Car sales in India to analyse the data and draw insights using Pandas and Numpy

PROJECTS

Harmonia | *HTML, CSS, JavaScript*

- * **Fetching data:** Fetching and displaying a list of songs and albums from a local server using the Fetch API.
- * **Dynamic Playlists:** Creating a dynamic playlist with album covers, song titles, artists, and duration.
- * **Audio Playback:** Implementing audio playback controls (play, pause, next, previous) with event listeners.
- * **Seekbar:** Updating the seek bar and current time display in real-time during audio playback.
- * **Navigation:** Allowing users to switch between different albums and playlists.
- * **Volume control and metadata:** Incorporating additional features like volume control and album metadata display.

Foodie | *React JS, Tailwind, Redux*

- * **Navigation:** Home, About Us, Contact Us, and Cart pages accessible through a header.
- * **Restaurant Discovery:** Displays restaurant cards fetched from Swiggy's live API on the homepage.
- * **Restaurant Details:** Clicking on a card leads to the restaurant's menu page.
- * **Filtering** Allows filtering restaurants based on high ratings.
- * **Search:** Enables searching for specific restaurants.
